【主 題】105 學年度資工系暑期訪問學生心得分享

【分享報導】

今年暑期有 5 位來自法國 CPE Lyon 及 Telecom Saint-Etienne 二所大學學生至本系訪問，接待老師為本系林俊宏教授，訪問期間為 7 月 3 日至 8 月 31 日。以下是其中 4 位來臺訪問心得：

### ◎ Gael VENIN (CPE Lyon)

I'm Gael, 23, I'm a French student in Master's Degree (CPE Lyon School) and I currently do a 2-months internship in the Department of Computer Sciences & Engineering at NSYSU thanks to Professor Chung-Hung Richard Lin.

For me, Taiwanese and more specifically Kaohsiung people are really open-minded, friendly and affordable for day life. Even through the language barrier, they still try to help foreigners as best as they can. Also, people are modest and honest, maybe this is the biggest gap between the European/French culture and the Taiwanese. It could seems funny but I wish all French people act like this, then some daylife conflicts could be avoided.

About studying, I believe NSYSU put in place the financial, technical and cultural means for their students. It has the chance to have a great infrastructure and different efficient departments. Professors and also administration employees do their best and work amazingly fast, they also are reactive, proactive and available for the students which is very appreciable.

To put in a nutshell, the Kaohsiung/Taiwanese mood is really relaxing, people are smart and kind. The comeback to France will be tough the first days.

### ◎ Quentin RAND (Telecom Saint-Etienne)

When I arrived in Taipei I was a little bit lost, I was really jet lagged and the city was super huge for me. So I was anxious at the beginning. Since the second day I'm in Tainan, I discovered that people here can take on their time to try to help me and give me some advices. After that, I came in Kaohsiung and my internship really began. I spend something like one

7 weeks in Kaohsiung and I don't want to leave. The life on the campus was just awesome, I found some people to have fun everyday and some nights, and here the city is still leaving during the night and for me it was impressive and pleasant. Even Mister Lin invited us in a good place to discover the various food that we can find in Taiwan. It was really good for me to see how people are living here and how they think. In the end, I can say that my internship was nearly the best holidays of my life. Thank you for everything !!!!

### © Paul Balvay (Telecom Saint-Etienne)

I passed more the share of my time to visit Kaohsiung and the surroundings. I also took part in a trip all the way along on the east side of Taiwan. That has me enormously more, since I could completely see seeing the beauty of the island. But I also understood the geopolitical situation of Taiwan with the world but especially with China. Moreover I as tested best as I could understand the culture and the state of mind of people. That was enormously different from what I had seen up to that point. I adored this stay, that enormously opened me the spirit. The visit of the temples and the small districts enabled me to see another way of thinking and to interiorize the things. The way of working and of living with the daily newspaper here has me enormously more.

I thank you for having taken to me as raises for this internship which was one of best of my life.

### © KARAKUS VALENTIN (CPE Lyon)

When I arrived in Kaohsiung I was very excited because it was my first trip in Asia.

#### **About the school :**

I was very happy to be greeted friendly by my professor Richard Lin and my Taiwanese classmate. The research projects conducted at NSYSU are very interesting and rewarding for my curriculum.

#### **About the people / culture:**

I was very impressed by the kindness of people. I discovered that people here can take on their time to try to help me and give me some advices. Some people did not speak English but they want to help you. The Taiwanese are very welcoming to foreigners. Most of the time they want to take pictures with me and it really makes me happy.

### **About the country :**

I had the opportunity to visit the island from east to west and from south to north and i was dazzled by the landscape.
