Dear Prof. Lin

All papers in this special issue have been sent to a second round reviewing process, since we discovered some problems in the accepted papers via the conf. please see

<http://naturalspublishing.com/Artclss.asp?ArtclID=2610>

we do not like to repeat this problem which affects the reputation of our journal. So that your papers sent to other referees. In case you would like to withdraw your papers, we can refund your payment .

Also, if you like to publish your papers in a regular issue, let us know

yours AMIS Office

Subject : ICETI2011 publication

Message : Dear Sir,

The proceedings of First International Conference on Engineering and Technology Innovation 2011 will be published in AMIS. We are wondering when it will be published.  
Thanks.

-Richard Lin, Professor
